

INTEGRATED LAND USE PLANNING

28 February to 3 March 2023

Venue: URA Centre

INTRODUCTION

The course aims to foster a deeper understanding of Singapore's land use planning system, provide an understanding of the strategies adopted to transform Singapore into a modern city today and our plans for the future.

COURSE OUTLINE

Singapore in Perspective

- What are Singapore's challenges in land use planning?
- How does our planning system address these challenges and constraints

Planning for Development in Singapore

- Principles and strategies of long term strategic planning
- How detailed local plans are used to guide development
- How the requirements for transport, parks and recreation, water management and other infrastructure are integrated in master planning

From Planning to Implementation

- How planning visions and ideas are transformed into reality
- Implementing plans through Government Land Sales and Development Control

SPEAKERS

The lectures will be conducted by experienced practitioners comprising Directors, Senior Architects/Planners from URA and the relevant agencies.

WHO SHOULD ATTEND

Government officials, policy makers, planners, architects, professionals and practitioners in related disciplines.
