## **PREFACE**

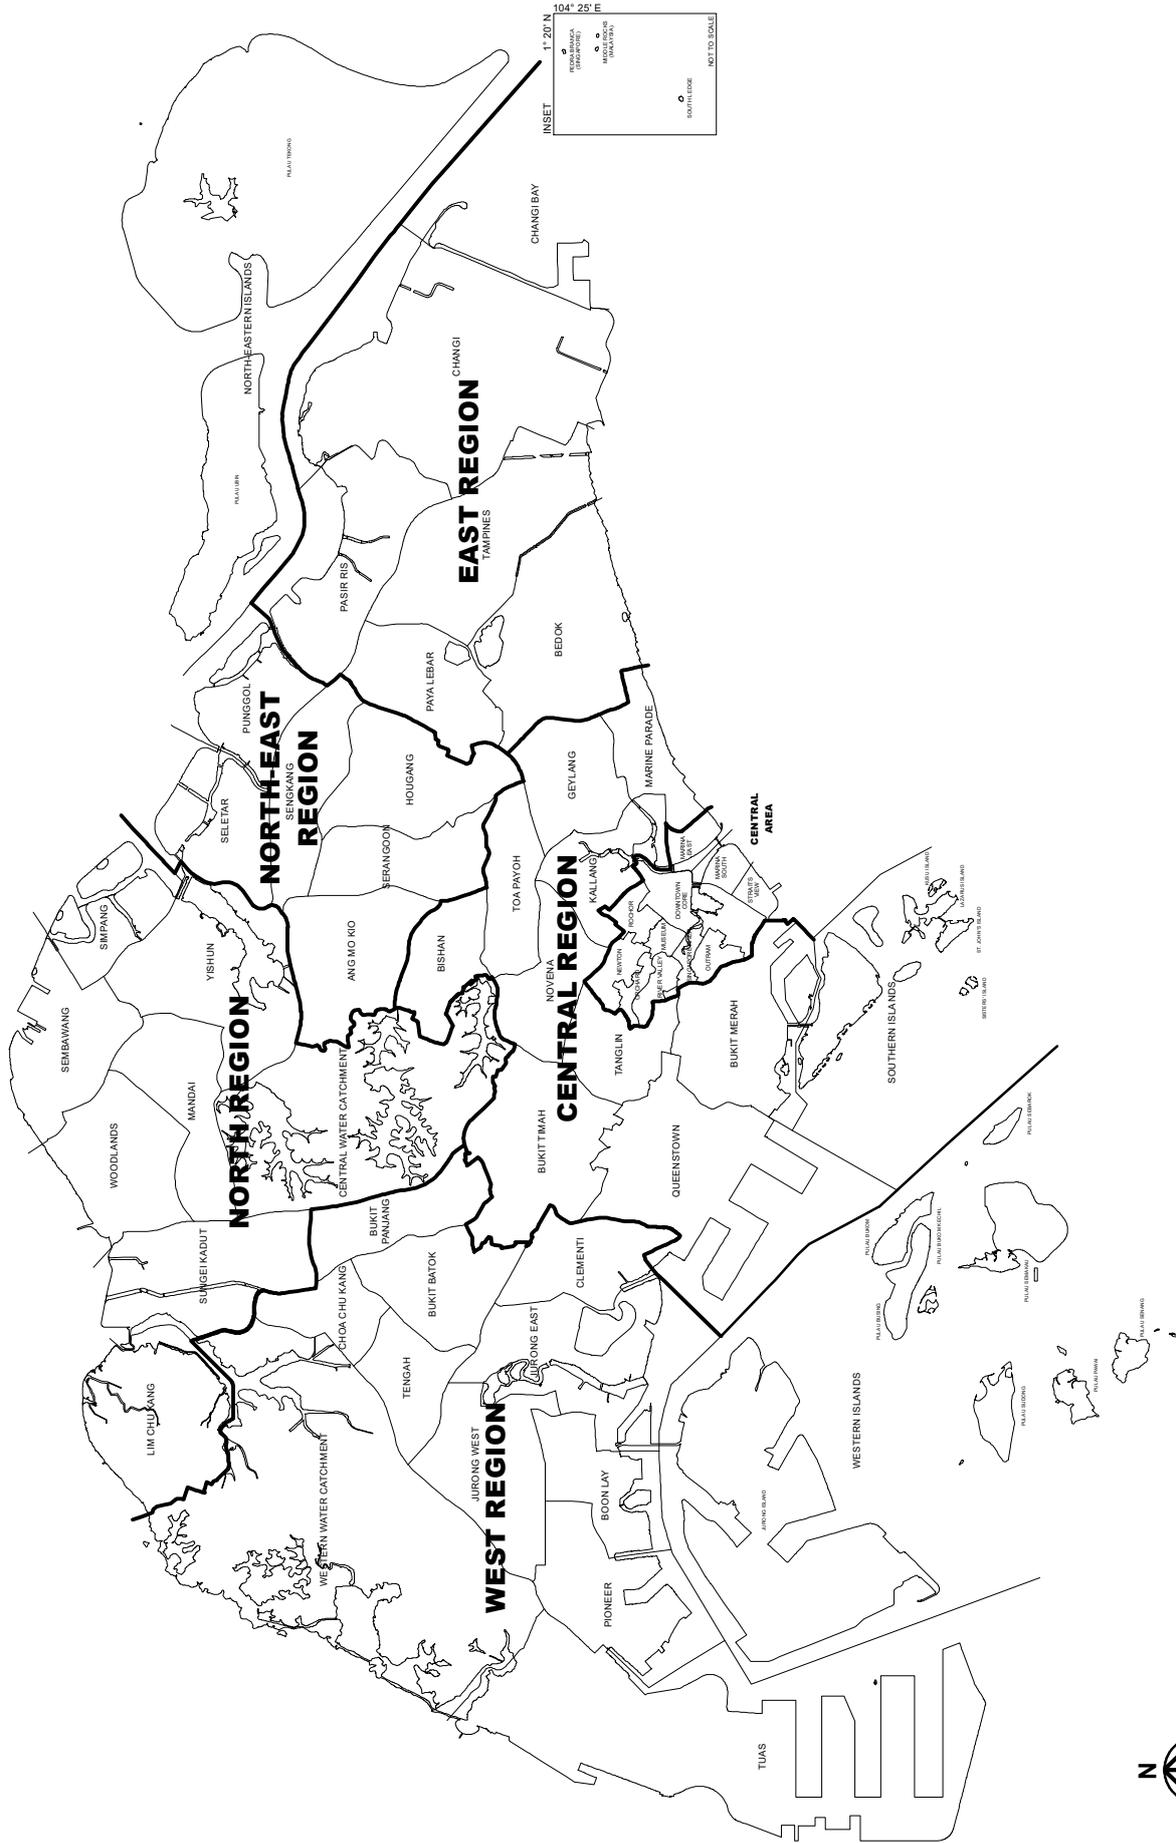

The Master Plan for the Republic of Singapore was first formulated during 1952-1955, and approved by the Government in August 1958. The Master Plan has since undergone ten reviews and various amendments have been made to it.

In the current planning system, the Concept Plan maps out the long term land use strategies for Singapore. The Concept Plan is reviewed regularly. The intentions of the Concept Plan are translated into detailed land use plans for the different planning areas to form the Master Plan.

In the current review of the Master Plan, the detailed land use plans for the different planning areas were amended and updated where necessary to reflect the land use intentions. After incorporating relevant feedback from the public exhibitions, these amended plans are formalised as the Master Plan 2019.

The contents and provisions of the Master Plan are applied to guide physical development through development control. These contents and provisions do not confer development rights nor should they be taken as the basis for determining the liability for payment of development charge or temporary development levy. Application for permission to develop must comply with detailed development control, conservation and preservation requirements, where applicable. In addition, a development charge or temporary development levy may be payable pursuant to the provisions of Part V or Part VA, as the case may be, of the Planning Act and the applicable subsidiary legislation.

# MAP OF PLANNING AREAS

NOT TO SCALE

# SECTION I

## PRELIMINARY

### 1.0 Definition of Terms

1.1 In this Master Plan Written Statement 2019 (“this Written Statement”, which expression shall include any supplement, amendment or variation made to it from time to time), the following expressions shall have the meanings assigned to them below:

1.1.1 “amendment” in relation to the Master Plan has the same meaning as defined in Section 2 of the Planning Act.

1.1.2 “Amendment Plan” means any plan or plans included in an amendment to the Master Plan made on or after 18 November 2019.

1.1.3 “application” means:

- (i) an application for planning permission as defined in Section 2 of the Planning Act; or
- (ii) an application for conservation permission as defined in Section 2 of the Planning Act, and shall include any such aforesaid application with regard to a monument.

1.1.4 “competent authority” has the same meaning as defined in Section 2 of the Planning Act.

1.1.5 “conservation area” has the same meaning as defined in Section 2 of the Planning Act.

1.1.6 “demarcated area” means the area demarcated on the Amendment Plan as being the area to which the Amendment Plan shall apply.

1.1.7 “existing use” means the use to which a building or land was put on 1st February 1960 or a use authorised or permitted under the Planning Act or the repealed Act.

1.1.8 “floor area” has the same meaning as defined in the Planning (Development Charges) Rules (Rule 5).

1.1.9 “monument” means a monument for which there is in force a preservation order under the Preservation of Monuments Act (Cap. 239); a list of such monuments as at 15 October 2019 is shown in Table 2.

1.1.10 “national park” means any area of land designated as a National Park in Part I of the Schedule under the Parks and Trees Act (Cap. 216), a list of such national parks is shown in Table 3.

- 1.1.11 “nature reserve” means any area of land designated as a Nature Reserve in Part II of the Schedule under the Parks and Trees Act (Cap. 216), a list of such nature reserves is shown in Table 3.
- 1.1.12 “Planning Act” means the Planning Act (Cap. 232).
- 1.1.13 “plot ratio” means the ratio between the floor area of the building and site area.
- 1.1.14 “repealed Act” means the repealed Planning Act (Cap. 232, 1990 Ed).
- 1.1.15 “site area” means the area of a development site unless otherwise defined in the Amendment Plan.

## **2.0 Applicability**

- 2.1 This Written Statement shall apply to any Amendment Plan unless otherwise expressly stated therein.
- 2.2 From the effective date (being the date of the Minister’s approval) of the amendment to the Master Plan, all applications in respect of land within the demarcated area to which the Amendment Plan applies, including pending applications on which the competent authority has not made a decision, shall be considered in accordance with the Amendment Plan and this Written Statement and not the Master Plan prior to the effective date of the amendment.
- 2.3 Where Section 14(2) of the Planning Act applies, an application need not be considered in accordance with the Amendment Plan and this Written Statement, it shall instead be determined in such manner as the Minister may approve.
- 2.4 Where there is any contradiction, discrepancy or inconsistency between a map comprised in the Amendment Plan and this Written Statement, this Written Statement shall prevail.
- 2.5 The planning intentions in the Amendment Plan are subject to interpretation and elaboration by the competent authority. The competent authority may for this purpose from time to time publish development control plans, which include envelope control, building height, street block, connectivity, underground and urban design plans.

## **3.0 Development Charges and Temporary Development Levy**

- 3.1 The contents and provisions of the Amendment Plan and this Written Statement are intended to guide and control the physical development of the demarcated area. The Amendment Plan and this Written Statement are not the basis for the calculation and payment of development charges or temporary development levy.
- 3.2 Any development within the demarcated area approved by the competent authority shall where applicable be subject to payment of development charge or temporary development levy as provided under Part V or Part VA, as the case may be, of the Planning Act and the applicable subsidiary legislation.

## SECTION II

### ZONING AND PLOT RATIO

#### 4.0 Zoning And Plot Ratio

4.1 The zoning and plot ratio parameters referred to in the Amendment Plan prescribe the land use and development intensity permissible within the demarcated area.

#### 5.0 Zoning Interpretation

5.1 The zoning notations in the Amendment Plan reflect the permissible predominant use of land within the demarcated area, subject however to the following:

- (i) Areas shown on the Amendment Plan for use as minor roads shall despite the zoning for the respective area be deemed to be zoned for Road use.
- (ii) Areas shown on the Amendment Plan for use as:
  - (a) drains
  - (b) utilities (such as electrical substations and septic tanks)
  - (c) rapid transit system structures, or
  - (d) at grade or above ground structures of any underground road system or road tunnel,

shall despite the zoning for the respective area be used for such specified uses unless otherwise allowed by the competent authority.

5.2 The competent authority may consider and approve uses (other than those permissible for the zoning) which are ancillary, related or compatible with the permissible predominant use. The type and quantum of uses that may be regarded as compatible with the predominant use shall be determined by the competent authority. The type and quantum of all ancillary or related uses that may be allowed for the support or management of the predominant use shall be determined by the competent authority having regard to the nature and scale of the development.

5.3 Where the existing use for the land is not consistent with the zoning for the land as depicted in the Amendment Plan, the competent authority may despite such zoning for the land consider and approve an application in respect of the land for:

- (i) change in use to a use which would be permissible under the same zone as that under which the existing use is; and
- (ii) additions, alterations and improvements to the existing buildings on the land.

5.4 Where the land is located within the designated historic conservation districts of Chinatown, Kampong Glam, Little India, Boat Quay, Blair Plain or Cairnhill and Emerald Hill and is zoned for Commercial use in the Amendment Plan, the competent authority may despite such zoning consider and approve an application in respect of the land for hotel, institutional or residential use.

- 5.5 The interpretations of zonings are given in Table 1.
- 5.6 Within the zones indicated in the Amendment Plan, the competent authority shall control developments in such a manner as to preserve or promote the character of the area as indicated by the notations in the Amendment Plan and any development control plans as may be published by the competent authority from time to time.
- 5.7 For the purpose of paragraph 5.1(i), “minor road” shall include back lanes but exclude:
- (i) any stratum of space on or within any land required and approved by the competent authority for use as public road and which is vested or to be vested to the State;
  - (ii) any road tunnel or underground road.
- 5.8 The competent authority may consider and approve uses of subterranean spaces under land, including uses which are other than those permissible for the zoning of the land as depicted in the Amendment Plan.

## **6.0 Plot Ratio Interpretation**

- 6.1 The plot ratios indicated in the Amendment Plan prescribe the maximum permissible intensity for developments within the demarcated area. The actual density to be permitted for any development shall be determined by the competent authority subject to the prescribed maximum permissible plot ratio and having regard to the intensity of the surrounding developments.
- 6.2 The intensity to be permitted for any development is also subject to compliance with all other requirements imposed by the competent authority for the development as provided in paragraph 9.1(ii). The resultant intensity to be permitted for a development may therefore be below the maximum permissible plot ratio prescribed.
- 6.3 For areas without any prescribed intensity, the plot ratio to be allowed shall be determined by the competent authority at his discretion.
- 6.4 Subject to paragraph 6.5, where a development on any land within the demarcated area is approved for:
- (i) a use or uses consistent with the zoning of the land in the Amendment Plan; and
  - (ii) an intensity higher than the prescribed maximum permissible intensity,
- such approved intensity of the development shall, subject to the provisions of Part V and Part VA of the Planning Act, be deemed to be the prescribed maximum intensity for the land.

- 6.5 Paragraph 6.4 shall not apply in the following circumstances:
- (i) the competent authority has in the grant of planning permission or conservation permission for the development on the land expressly imposed a term or condition to the effect that the approved intensity of the development shall not be deemed to be the prescribed maximum intensity for the land;
  - (ii) the development on the land is approved for landed dwelling house or houses and the land is zoned for Residential purpose with a maximum permissible plot ratio prescribed.

6.6 For the purpose of paragraph 6.5, a “landed dwelling house” means any detached, semi-detached, linked or terrace house used wholly or mainly for the purpose of human habitation and includes a dwelling-house governed by the provisions of the Land Titles (Strata) Act (Cap. 158).

6.7 For the purpose of paragraph 6.4, the competent authority may require the approved intensity of a development to be calculated and determined based on such method and requirements as the competent authority may specify.

6.8 Subject to Paragraphs 6.9 and 7, where land proposed for development includes land zoned or shown on the Amendment Plan for use as road or waterbody, the maximum permissible floor area for the development shall be determined as follows:

$$\text{Area of the land proposed for development} \quad \times \quad \text{The prescribed plot ratio for the part of the land not zoned or shown for use as road or waterbody}$$

6.9 Paragraph 6.8 shall apply only if the part of the land zoned or shown on the Amendment Plan for use as road or waterbody:

- (i) is not the subject of an acquisition under the Land Acquisition Act (Chapter 152); and
- (ii) has not been vested in the State.

**7.0 Zoning and Plot Ratio Interpretation for land zoned or shown for use as Road or Waterbody**

7.1 Subject to paragraph 7.2, where land proposed for development includes land zoned or shown on the Amendment Plan for use as road or waterbody (“the road or waterbody land”) and the part of the land not zoned for use as road or waterbody comprises of areas with different zonings and/or different prescribed plot ratios, the competent authority shall, at his discretion, determine and assign:

- (i) one or more of the said zonings to different parts of the road or waterbody land;
- (ii) one or more of the said prescribed plot ratios to different parts of the road or waterbody land.

7.2 Paragraph 7.1 shall apply only if the part of the land zoned or shown on the Amendment Plan for use as road or waterbody satisfies the conditions set out in paragraph 6.9.

## **8.0 Incentive Plot Ratio**

8.1 The competent authority may in accordance with and subject to any planning guidelines or incentive scheme approved by the Minister, allow an increase or increases in plot ratio over and above the maximum permissible intensity prescribed for developments, or the maximum permissible intensity as determined by the competent authority under paragraph 6.3. The actual intensity to be permitted for a development shall be determined by the competent authority subject to the prescribed or determined maximum permissible intensity and the allowable increase or increases in plot ratio under the planning guideline or incentive scheme. If the purpose for which the floor area attributable to any such increase in plot ratio may be used is specified in the planning guidelines or incentive scheme, such floor area shall be used only for the specified purpose unless otherwise allowed by the competent authority. Such floor area shall not be taken into consideration for the purpose of paragraph 6.4 unless otherwise allowed under the planning guidelines or incentive scheme.

## **9.0 Development Control And Other Requirements**

9.1 In addition to the contents and provisions of the Amendment Plan, the competent authority in determining an application in respect of land within the demarcated area:

- (i) Will take into consideration:
  - (a) all applicable planning guidelines (e.g. guidelines pertaining to the control of building height, building set back and spacing, connectivity, detailed land and subterranean space use, building use, building form, urban design, plot size, etc.) and relevant conservation guidelines that may be issued by the competent authority;
  - (b) any relevant guidelines for monuments that may be issued by the National Heritage Board; and
  - (c) any relevant guidelines or nature reserves and national parks that may be issued by the National Parks Board.
- (ii) May impose such development control and/or conservation and/or preservation requirements as well as requirements with regard to nature reserves and national parks as the competent authority may deem expedient or necessary.
