

# STEP BY STEP GUIDE TO PREPARE THE LOCATION PLAN FOR SBNB E-SUBMISSION

1. Navigate to the SLA OneMap webpage <https://www.onemap.sg/home>
2. Key in the address or existing building name (if any) of the subject site.

3. Select the address or existing building name of the subject site (example of site address : 45 Maxwell Road).

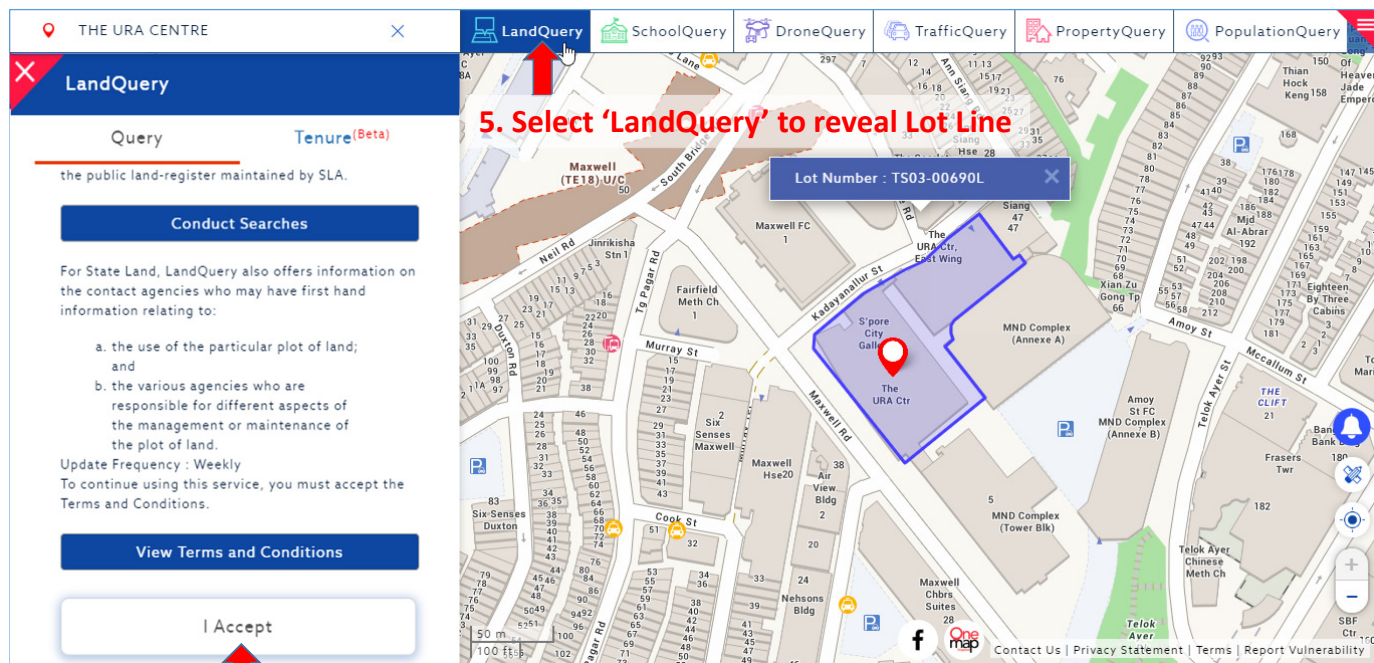

4. After you have selected the corresponding site address / building name, the location map will appear.

5. Select the **LandQuery** to reflect the lot line on the location map.

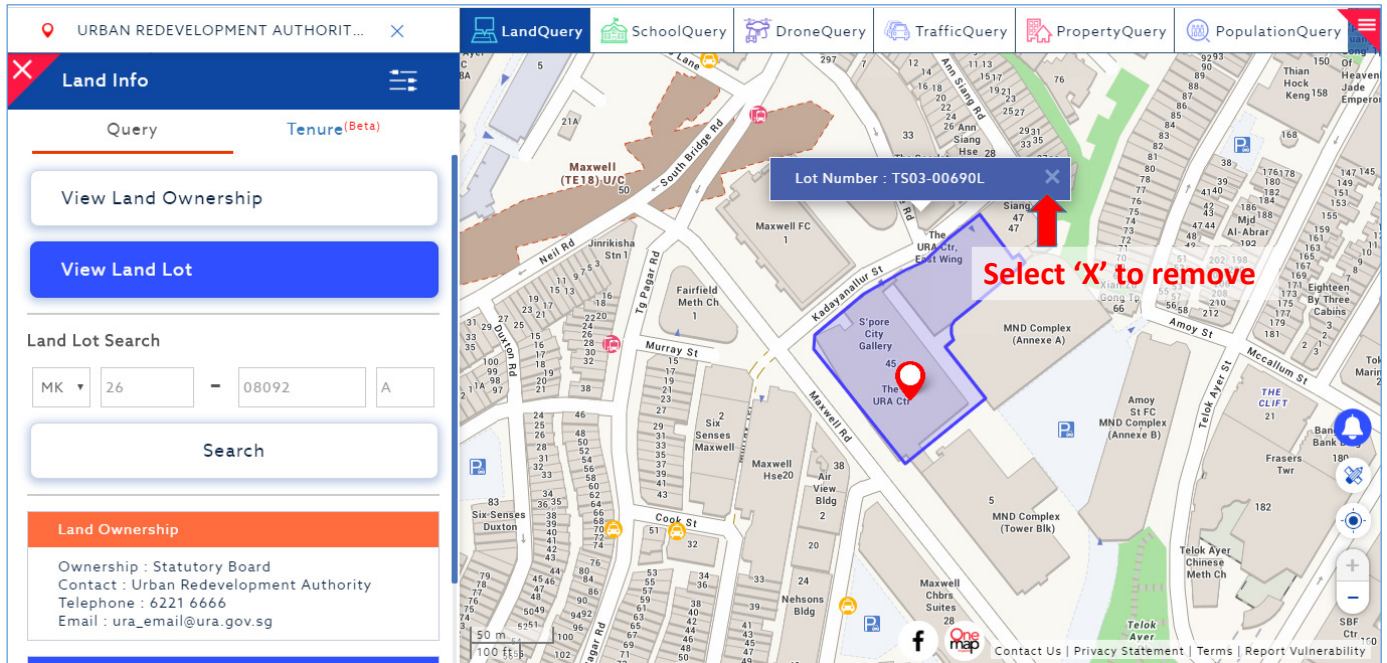

6. To continue using SLA's onemap service, please **Accept** the Terms and Conditions of use (in the left column).

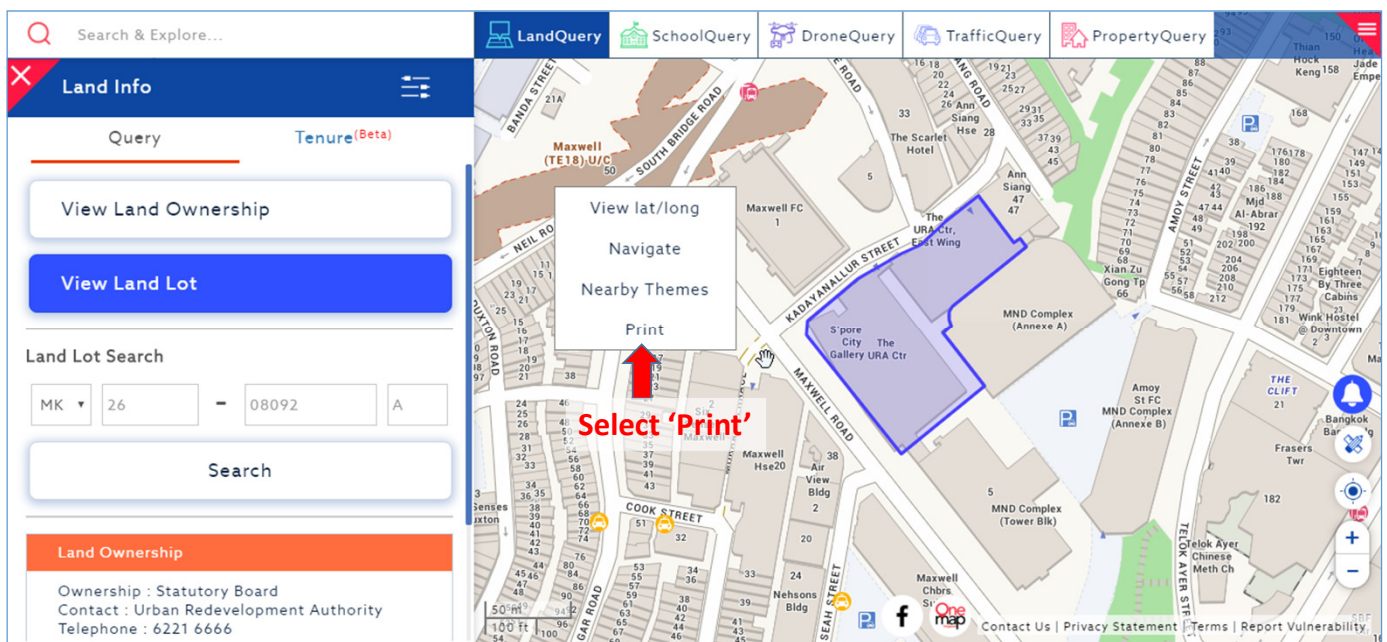

6. Select 'I Accept'

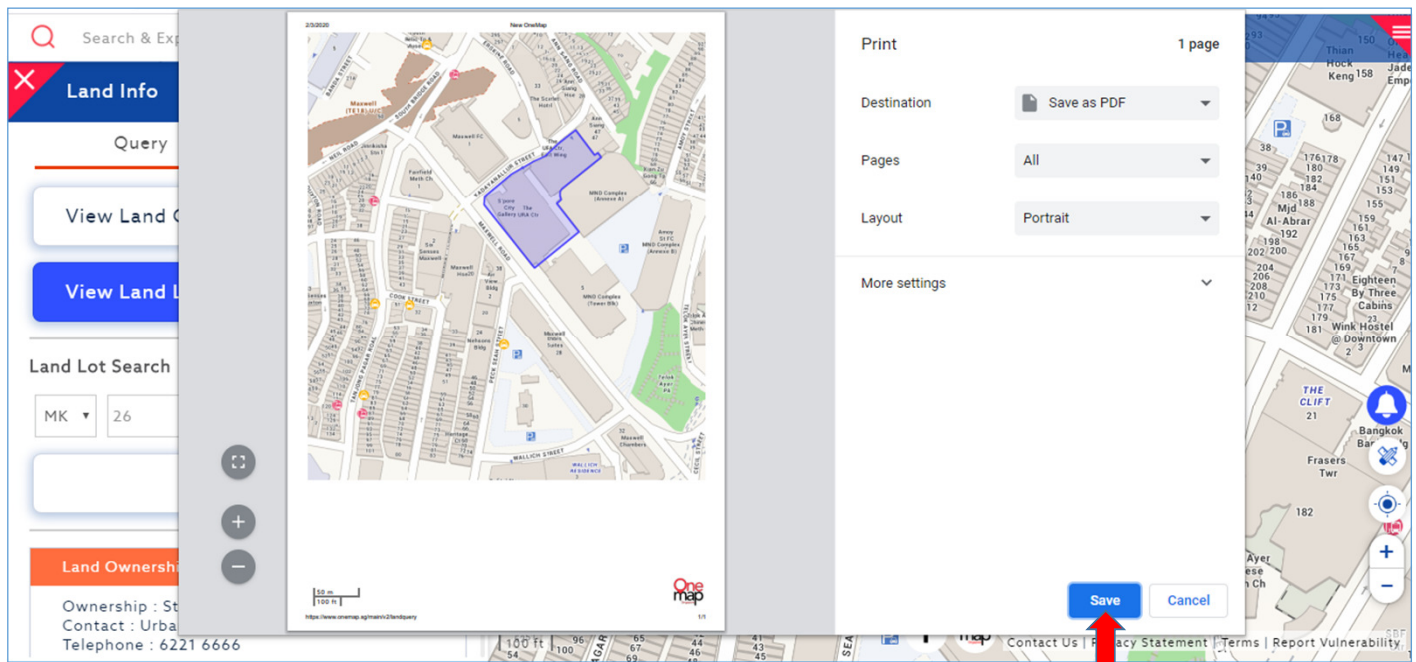

7. Prepare the location map to reflect the boundary of the development and nearby streets clearly.

8. The ideal location plan should clearly demarcate the boundary of the development and reflect nearby streets to help identify the location of the site.
9. To save the image below, right click on the image. The pop-up notification will appear and select **Print**.

10. Save the Location Plan as a PDF file and submit the document in your SBNB E-submission.

Select 'Save'

### **Sample of Location Plan to be submitted**

The ideal location plan should clearly demarcate the boundary of the development and reflect nearby streets to help identify the location of the site.
